Section 1	**Identification**	
(a)	Product identifier	
	Product name	Combi-Protec
	Synonyms	Combi-Protec Insect Bait Attractant
(b)	Other means of identification	
	EPA Registration No.	Not applicable
	Active ingredient	Proteinaceous mix of food-based plant extracts and sugars
	CAS No.	Not applicable
(c)	Recommended use and restrictions on use	
	Recommended use	Insect Bait Attractant
	Restrictions on use	Any use not listed on the label. Read and understand the entire label before using. Use only according to label directions.
(d)	Details of the supplier of the Safety Data Sheet	
	Name	Andermatt USA Corporation
	Address	107 Gilbreth Parkway Mullica Hill, NJ 08062
	Phone (technical)	+1 302 724-6888
	E-mail	contact@andermattusa.com
(e)	Emergency telephone number	
	Phone (medical)	1-800-222-1222 (National Poison Control Hotline)

Section 2	**Hazard identification**	
(a)	Classification of the substance or mixture	
	Hazard classification	Not classified as hazardous by OSHA.
(b)	Label elements	
	Signal word	None.
	Hazard statements	None.
	Symbols	None.
	Precautionary statements	Store locked up. Keep out of the reach of children. To avoid risks to human health and the environment, comply with the instructions for use. See Section 15.
(c)	Other hazards	
		None known.

Section 3	**Composition/information on ingredients**	
(a)	Substances	
		Not applicable. This product is a mixture.
(b)	Mixtures	
	Proteinaceous mix of food-based plant extracts and sugars Hazardous ingredients: None	

Section 4	**First aid measures**	
(a)	Description of first aid measures	
	General notes	Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Poison Control Hotline at 1-800-222-1222 for emergency medical treatment information.

		No dangerous effects known. If symptoms occur, contact a doctor or the National Poison Control Hotline.
	Following inhalation	Move to fresh air, rest, half upright position, loosen clothing. Oxygen or artificial respiration if there is difficulty in breathing. Seek medical advice if symptoms occur.
	Following skin contact	Wash with plenty of water. If irritation occurs, seek medical advice.
	Following eye contact	Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If irritation persists, seek medical attention.
	Following ingestion	No specific measures required.
	Advice to physician	Symptomatic treatment
(b)	Most important symptoms and effects, both acute and delayed	
		No typical symptoms and effects known.
(c)	Indication of any immediate medical attention and special treatment needed	
		None

Section 5	**Firefighting measures**	
(a)	Extinguishing media	
	Suitable extinguishing media	Water spray, foam, carbon dioxide, dry chemical powder
	Unsuitable extinguishing media	None known
(b)	Specific hazards arising from the mixture	
		Dust dispersed in air becomes explosive when exposed to ignition source.
(c)	Advice for firefighters	
		None

Section 6	**Accidental release measures**
(a)	Personal precautions, protective equipment, and emergency procedures
	Handle in accordance with good industrial hygiene and safety practice.
(b)	Environmental precautions
	Discharge into the environment must be avoided. The product is not environmentally hazardous substance. Do not discharge high quantities into drains / surface water. Use a shovel to put the material into a convenient waste disposal container.
(c)	Methods and material for containment and cleaning up
	For residues: Sweep or shovel spills into appropriate container for disposal. Sweep up with explosion proof vacuum cleaner. Small quantities may be hosed down in normal sewage with plenty of hot water. Avoid release of large quantities into drains or surface waters. Avoid making dust.
(d)	Reference to other sections
	See personal protective equipment under Section 8 of SDS. Refer to Section 13 for disposal considerations.

Section 7	**Handling and storage**
(a)	Precautions for safe handling
	Handle in accordance with good industrial safety practice.
(b)	Conditions for safe storage, including any incompatibilities
	Keep container tightly closed and dry; store in a cool place. Protect from direct sunlight.

Storage stability:
Storage temperature: <= 40°C
Storage duration: 36 months
Protect from temperatures above 80°C.

Section 8	Exposure controls/personal protection	
(a)	Control parameters	
	No components with occupational exposure limits.	
(b)	Appropriate engineering control	
	No specific recommendations	
(c)	Individual protection measures, such as personal protective equipment	
	Eye/face protection	Wear safety glasses when dumping bags.
	Skin protection	Wear at least long-sleeved shirt and long pants, waterproof gloves and shoes plus socks
	Respiratory protection	Respiratory protection is recommended
	Thermal hazards	No specific recommendations

Section 9	Physical and chemical properties	
(a)	Information on basic physical and chemical properties	
	Physical state	Crystalline solid
	Color	Yellow
	Odor	Neutral to sweet
	Melting point/freezing point	103°C (217.4°F) (1.003,2 hPa)
	Initial boiling point and boiling range	N/A
	Flammability	N/A
	Lower and upper explosion limit or flammability	N/A
	Flash point	N/A
	Auto-ignition temperature	>400°C
	Decomposition temperature	N/A
	pH	5-6 (20 °C)
	Kinematic viscosity	N/A
	Solubility	Miscible in water (20 °C)
	Partition coefficient: n-octanol/water	N/A
	Vapour pressure	0,2 hPa (25 °C)
	Relative density	700 – 800 (g/L) (20°C)
	Relative vapour density	N/A
	Particle characteristics	N/A
(b)	Other information	
		None

Section 10	Stability and Reactivity	
(a)	Reactivity	
		No hazardous reactions if stored and handled as prescribed/indicated. Corrosion to metals: No corrosive effect on metal.
(b)	Chemical stability	

		The product is stable if stored and handled as prescribed/indicated.
(c)	Possibility of hazardous reactions	
		No hazardous reactions if stored and handled as prescribed/indicated.
(d)	Conditions to avoid	
		> 40 °C Avoid long term exposition to direct sunlight causing degeneration of protein ingredients.
(e)	Incompatible materials	
		None
(f)	Hazardous decomposition products	
		Possible decomposition products: Burning can produce CO and CO2
Section 11	**Toxicological information**	
(a)	Information on toxicological effects	
	Acute toxicity	Not toxic (food and food additives)
	Skin corrosion/irritation	No data available
	Serious eye damage/irritation	No data available
	Respiratory or skin sensitization	No data available
	Germ cell mutagenicity	Not applicable
	Carcinogenicity	Not applicable
	Reproductive toxicity	Not applicable
	STOT-single exposure	Not applicable
	STOT-repeated exposure	Not applicable
	Aspiration hazard	Not applicable
(b)	Reference to other sections	
	See Section 4 for symptoms and acute and delayed effects.	
Section 12	**Ecological information**	
(a)	Ecotoxicity	
	Acute (short-term) toxicity	
	Fish	No information available
	Crustacea	No information available
	Algae/aquatic plants	No information available
	Other organisms	No information available
	Chronic (long-term) toxicity	
	Fish	No information available
	Crustacea	No information available
	Algae/aquatic plants	No information available
	Other organisms	No information available
(b)	Persistence and degradability	
		Readily biodegradable
(c)	Bioaccumulative potential	
		No information available
(d)	Mobility in soil	

		Assessment transport between environmental compartments: Adsorption in soil: Study scientifically not justified.
(e)	Other adverse effects	
		No information available

Section 13	**Disposal considerations**	
(a)	Waste treatment methods	
	Product disposal	Dispose of in accordance with local regulations. Small quantities may be disposed of with normal waste.
	Container handling	Completely empty container. Offer for recycling if available or dispose of in a sanitary landfill.

Section 14	**Transport Information**	
(a)	UN number	Not applicable
(b)	UN shipping name	Not applicable
(c)	Transport hazard class(es)	Not applicable
(d)	Packaging group	Not applicable
(e)	Environmental hazards	None
(f)	Transport in bulk according to IMO instruments	Not applicable
(g)	Special precautions for users	None

Section 15	**Regulatory information**	
(a)	Safety, health and environmental regulations/legislation specific for the mixture	
	EPA/FIFRA	This product has been evaluated by the United States Environmental Protection Agency (EPA) and determined to be a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). However, the product is exempt from FIFRA regulation under 40 CFR §152.25(d) (Foods Exemption), as it consists solely of food-based ingredients. Therefore, this product is not subject to EPA pesticide registration requirements. This product does not qualify as a minimum risk pesticide under 40 CFR §152.25(f). Users must follow the product label instructions for proper use. State, territorial, or tribal authorities may impose additional regulatory requirements, including registration obligations.

Section 16	**Other information**	
		This information only concerns the above-mentioned product and does not need to be valid if used with other product(s) or in any process. The information is to our best present knowledge correct and complete and is given in good faith but without warranty. It remains the user's own responsibility to make sure that the information is appropriate and complete for his special use of this product.
i	Indication of changes	
		Adapted to Occupational Safety and Health Administration (OSHA). Hazard Communication Standard, 29 CFR §1910.1200 (2024 version).
	Date of printing	25-May-26
